

Tarot A Tool for the Soul

Tarot cards have been used for guidance and inspiration for centuries. In this three part course we aim for students to gain an understanding of the symbology woven into the cards, and their inherent vibration, which has become embedded over time. We will study the whole set of 78 cards, and by the end of the course have confidence in using them to gain insight into our soul and our lives.

We will cover:

- The history of the Tarot
- How to care for your Tarot cards
- The significance of the symbols, colours and numbers contained within the tarot
- An understanding of the archetypes
- How to prepare for 'reading'
- How to 'merge' with the energy of the card
- Exercises to develop the intuition
- Different Tarot layouts
- Fun games to get to know the cards and yourself!

When:

7-8 february 2015
